Winemaking

The Secret Spot Moscatel do Douro 20-Year-Old is made in the traditional way. The harvest is done manually. The fermentation of the grapes is carried out in lagares (traditional stone troughs) with foot treading. The addition of grape brandy at the ideal moment marks the balance between the body of the wine and the bouquet. Post-fermentation maceration. Pressing and subsequent aging in seasoned wooden casks.

Aging

The different batches of wine age in seasoned wooden casks of various shapes until the final blend is formed.
